

Abstract of the Disclosure

Systems and methods create a page for a page based application such as a web page for a web application. The systems and methods include reading metadata for a database. The metadata is translated into a page description language. The page description language may be HTML. Alternatively, the page description language may be a programming language such as the ColdFusion scripting language. The page description language may then be incorporated with other page description language or used as is to generate an application that interfaces with the database to retrieve and/or store data.

"Express Mail" mailing label number: EV370240111US

Date of Deposit: February 27, 2004

This paper or fee is being deposited on the date indicated above with the United States Postal Service pursuant to 37 CFR 1.10, and is addressed to the Commissioner for Patents, Mail Stop Patent Application, P.O. Box 1450, Alexandria, VA 22313-1450.
